FRYE AGAIN CHOSEN

Unanimously Elected President Pro Tem. of the Senate.

MR. MORGAN RESUMES HIS SPEECH

Urges Abrogation of Clayton-Bulwer Treaty.

NOMINATIONS CONFIRMED

Senator William P. Frye of Maine today was re-elected unanimously president pro tempore of the Senate to serve during the pleasure of the Senate. This is the second time Senator Frye has been honored by his colleagues. Five years ago-on February 7. 1896-the republicans then being in a minority, he was elected unanimously. His services as president pro tempore, especially since the death of the late Vice President Hobart, have won for him the cordial appreciation of his fellow senators.

At all times able, just and impartial in his direction of the business of the Senate. he has received the sincere praise and support of senators on both sides of the chamber, and his re-election was but a recognition of those sterling qualities which make him an admirable presiding officer.

At today's session Mr. Morgan of Alabama concluded his speech in support of his resolution declaring the abrogation of the Clayton-Bulwer treaty between the United States and Great Britain. His peroration was really pathetic. He had devoted the best years of his official life, he said, to advance the construction of the Nicaragua canal, but now he did not expect to live to see the work upon the great waterway

When the Senate convened today a huge bunch of beautiful roses adorned the desk of Mr. Gamble, the successor to Mr. Pettigrew of South Dakota. As upon preceding days of the present

session the galleries were crowded with spectators, but it was evident that Vice President Roosevelt's warning that he would direct the galleries to be cleared in the event of another demonstration of applause had had its effect, as not a ripple disturbed the quiet when the Vice President entered the chamber. ' During the opening proceedings a large ornamental basket, filled with bride and jaqueminot roses was brought in and placed upon the desk of Mr. Blackburn (Ky.).

The Vice President announced the appointment of Messrs. Cullom (Ill.) and Cockrell (Mo.) as members of the board of regents of the Smithsonian Institution.

Mr. Morgan Resumes.

At the conclusion of routine business Mr. Morgan resumed his speech, begun yesterday, in support of his resolution declaring the abrogation of the Clayton-Bulwer treaty. Mr. Morgan read that part of the Clayton-Bulwer treaty which relates to the Nicaragua canal, and also the protocols of an agreement for the construction of the canal made between the United States government and the governments of Nicaragua He declared it was perfectly clear that the protocols entered into last fall by this government were a distinct violation of the Clayton-Bulwer treaty. It was equally evident that the United States must abandon its plighted faith with Nicaragua and Costa Rica in order that the Clayton-Bulwer treaty might be fastened permanently upon this government and

fiance by the President of the Clayton-Bulwer treaty and his disregard of its pro-They undertook to place the government on the high ground that the Clayon-Bulwer treaty is abrogated by this government.

A Present Duty.

"It is our duty," insisted Mr. Morgan, "to declare that that treaty is not in the way of our legislating for the Nicaragua canal. If we hesitate today it will be the same a year hence, and the provisions of that treaty will be fastened upon us."

Mr. Morgan urged that his resolution b adopted in order that the President might understand the position of the Senate so thoroughly that he would feel justified in proceeding along lines looking to the construction of the Nicaragua canal while Congress was in its long recess.

In Executive Session.

At the conclusion of Mr. Morgan's speech the Senate, without taking any action upon the pending resolution, on motion of Mr. Lodge (Mass.), at 1:10, went into executive The Senate, in executive session, confirmed

the following nominations:
Robert S. McCormick of Illinois, to minister to Austria-Hungary; Frank W. Jackson of Pennsylvania, consul at Patras, Greece: Charles S. Wilson of Maine, secre of the legation to Greece, Roumania and Servia: Captain A. S. Crowninshield. U. S. N., to be chief of the bureau of navi-

gation, with rank of rear admiral. Senate also confirmed the military nominations sent to it by the President to lay, as well as the naval promotions sent in yesterday.

The Senate ratified an agreement with

various European powers for the amendation of the treaty made at Brussels some years since for the protection of industrial property, as affected by the registration of patents, trade marks, etc. The modifications made by the agreement which was today acted upon are not of general tater-One of them changes the phraseology in regard to the place of meeting. The committee on foreign relations had not acted upon them during the present session and senators generally hold that it is necessary that there hould be committee action before the Senate can take them up again.

Mr. Frye Elected President Pro Tem At 1:40 o'clock p.m. the Senate resumed consideration of legislative business. Mr. Allison offered a resolution that the Senate proceed to the election of a president pro tempore, and it was adopted. Mr. Allison then offered the following resolution:

"That Wm. P. Frye, a senator from Maine, be, and he hereby is, elected president of the Senate pro tempore, to hold office during the pleasure of the Senate and in accordance with resolution of the Senate adopted on the 12th day of March, 1890, on the subject."

Allison offered the following: "That the secretary wait upon the President of the United States and Inform him that the Senate has elected Wm. P. Frye, a senator from the state of Maine dent of the Senate pro tempore, to hold and

exercise the office in the absence of the Vice President from time to time, during the pleasure of the Senate, in accordan terms of its resolution, passed March 12, 1890."

The above order was made the formal action of the Senate.

and Mr. Morgan (Ala.) was appointed to A minute or two later the committee escorted Senator Frye to the president's desk. Visibly affected by the honor which again had been conferred upon him, he spoke as follows: "Senators, my cup is full and confidence that I have received in the last few days make me supremely happy and obliged to you. I am overwhelmed by them and have nothing more to say." Then at 1:50 p.m. the Senate adjourned

Republican Senators Expect to Clear Up Business.

The republican managers of the Senate expect to be able to clear up the executive business so as to enable the Senate to take a final adjournment Saturday. There was some talk of adjourning tomorrow, but this has been found to be impracticable, on account of an agitation by some of the republican senators, confined mostly to the new men, to compel a reorganization of the committees at this session. To meet this question a conference of the

republican senators is to be held tomorrow, and it is the expectation of the managers that the proposition to reorganize will be negatived, so that the adjournment may be taken on Saturday. A decision to reorganize the committees

would involve at least two weeks' further delay.

COL. SANGER'S SELECTION.

Decided Friction Between Senator Platt and Secretary Root.

There appears to be a decided friction between Senator Platt and Secretary Root, which might develop into active hostility should the nomination of Colonel Sanger for assistant secretary of war be sent to the Senate. Senator Platt saw Mr. Root about the matter this morning and was told by the secretary that he regarded the appointment as one personal to himstand as will sustain the President in his "patriotic and noble action."

Bill to Relieve Sureties for Howgate of a \$12,000 Bond. Among the bills that were "pocketed," or feiled because the President did not attach his signature to them, was one to relieve the administrators of Wm. B. Moses, de ceased, and of Lebbens H. Rogers from all listility to the United States by reason of the execution by Messrs. Moses and Rogers of a bond in the penalty of \$12,000 as sureties for Henry W. Howgate as property and disbursing officer of the signal corps of the United States army. It was shown in the hearing before the committee on claims of the House that on April 28, 1881, the acting controller of the treasury gave Capt. Howgate a letter saying his accounts as disbursing officer of the United States signal corps had been settled and balanced. On the basis of this letter Rogers and Moses proceeded as if their liability for Howgate had been settled, and it was four months later that is was discovered that

Howgate was a defaulter to an amount exceeding \$100,000, and proceedings were entered against him. A long line of litigation followed, involving Mr. Moses as the surety of Capt. Howgate. reporting the bill the committee said: 'After sureties have had notice of the discharge of the bond on which they were the sureties, and when their relation to principal may have entirely changed and their indemnity been surrendered it is not within the power of the government, without notice to them, to revive the bond and reimpose its obligations upon them. "But we think that the turning over by Moses to the government of property-property secured by his diligence and not the government's—out of which he could have made the full amount of his liability on the bond, the change in the conditions of the two sureties subsequent to the certification of Howgate's accounts by the Treas-ury Department and the placing of it out of their reach to indemnify themselves against

cial Correspondence of The Evening Star. HYATTSVILLE, Md., March 7, 1901. John Lewis was arraigned before Justice Carr last evening on a warrant sworn out by Robert Farstein, charging assault with attempt to kill. The assault is alleged to have taken place Monday evening last in Bladensburg, when, it is said, during an altercation, Lewis drew a razor and slashed Farstein about the head, narrowly missing the jugular vein. The fact that he wore a derby hat, it is said, saved the man's life. Justice Cole held Lewis under \$100 for the

action of the grand jury. A large representation from Bladensburg was in the office of Justice Carr last evening, several being witnesses in the case of Lucy Ross against Robert and Lilly Jackson, on the charge of keeping a disorderly house in that village. The justice, after hearing the evidence, fined each defendant and costs. The parties concerned are

BIDS REJECTED.

Proposals for Brookland Engine House Exceed Amount Available. The bids recently submitted to the District Commissioners for the construction of an engine house on Lansing street, between 12th and 13th streets, Brookland, have all been rejected as they exceed the amount available for the building.

Against Application. In the matter of the application of Mr. F. T. Browning for the cancellation of the taxes for improvements on lots 25 and 26. square 151, for the year ending June 30, 1890, the attorney for the District, Mr. B. Duvall, has advised the Commissione

For Partition of Estate. A bill in equity has been filed in the Supreme Court of the District by Marion A. Tippett, through Attorneys Charles H. Merrilat and James B. Archer, jr., against

Nelson Tippett and others, to secure the

partition of the estate of the late Edward

T. Tippett. The property consists of sev-

\$14,000. Edward T. Tippett, the bill states, died in 1895, leaving his estate to his wife, Hester for life, and after her death to his four children—Nelson Tippett, Grace Bernhard, Marion A. Tippett and Emma Marshall. The wife died in January, and it is now sought by means of a friendly suit to secure distribution among the heirs.

Infringement Alleged.

The Armat Moving Picture Company this

afternoon petitioned the Supreme Court of

the District of Columbia to enjoin Philemon B. Chase from making, using or selling certain moving picture machine devices, alleged to be infringements of letters patent held by the complainant.

MRS. KEEFE'S PENSION. Effect of a Provision in General De-Aciency Bill. By direction of Mr. Macfarland, presi-

dent of the board, an order is being prepared today for adoption by the District Commissioners, granting a pension of \$50 a month to the wife of the late Private C. Smith. She stated that the woman stopped A. Keefe of the fire department, who was recently killed as a result of the collision between a street car and truck B at the corner of Connecticut avenue and M street. The pension has been granted through

provision which was placed in the general deficiency bill recently passed by Congress, empowering the District Commissioners to grant, in their discretion, pensions from the firemen's relief fund in cases where the fireman has not been in the service for the period of twelve months. The general law on the subject of fire and police pensions provides that the beneficiaries must either have been employed at least a year or be the widows of men employed for that length of time. Fireman Keefe had not been in the serv-

ice the requisite period. Owing to the peculiarly sad nature of the case, however, the Commissioners urged the matter before Congress, and the provision as above stated was put into the bill. Mrs. Keefe called on Commissioner Macfarland this morning to express her gratitude. She will also be allowed \$75 from the relief fund for funeral expenses incurred in the burial of her hus-

OBTAINS A VERDICT.

Plaintiff Awarded \$300 as Damages for Assault.

The case of Simon Blum against George

Lauer, to recover \$10,000 damages claimed on account of an assault, alleged to have been committed by the defendant upon the plaintiff, in February, 1900, was heard today before Justice Clabaugh and a jury, in Circuit Court No. 2. On behalf of the plaintiff, Attorneys D. W. Baker and Wilton J. Lambert argued that the defendant had viciously beaten the plaintiff, because the latter had failed to pay a claim held against him by the defendant, and alleged that, by reason of the attack complained of the evidence showed the plaintiff had suffered great and permanent physical injury.
Attorneys J. C. Gittings and S. J. Fague, on behalf of the defendant, contended that while the evidence showed the defendant struck the plaintiff, the jury should find he was justified by reason of the plaintiff's actions and alleged use of abusive lan-

Walter R. Vaughan Arrested, but Released on Bond. Walter R. Vaughan, editor and manager of the Department News, was arrested this afternoon by Detectives Bauer and Muller on the charge of embezzling \$4,000 from the Peerless Manufacturing Company and was released on \$4,000 bonds to await further proceedings, Justice L. I. O'Neal becoming his security.

The warrant for Mr. Vaughan's arrest was issued by direction of Assistant United States Attorney Taggart upon complaint of Mr. John W. Thomas of 1315 N street

The friends of the accused denounce the arrest as an outrage, and say the trouble grows out of a difference of opinion as to how the business of the Peerless Company should have been transacted. Mr. E. B. Hay, who represents Mr. Vaughan, stated that he had advised Mr Thomas to go into a civil court and have the differences between himself and Mr. Vaughan settled there, but that the former chose to get out the warrant.

PENSION FORCE AT WORK.

Employes Again at Desks-President McKinley's Congratulations. The process of transforming the inaugural The process of transforming the inaugural ball room into an office building again was begun last night by the contractors who had decorated the pension office, and this public demand fell off and commission on office, and this morning the government employes were at work in their accustomed places. Of course all the decorations had not been removed, but the work went on during the day, and in a short time the great court of the build-

ing will resume its usual appearance. Chairman Edson today received the following letter, under date of the 5th instant, which was signed by President McKinley's private secretary:

'My Dear Mr. Edson: "The President requests me to convey to you an expression of his cordial appreciation of the services of yourself and the bers of your committees in connection with the inaugural ceremonies. rangements for the day, which were so splendidly planned and so effectively carried out, you achieved a most notable success and the President heartily congratulates

you. "I beg to thank you also in behalf of Mrs. McKinley and her guests for the many courtesies extended to them. Please be good enough to communicate this information to your associates.
"With my personal congratulations, and

assuring you that I appreciate your gener-ous and hearty co-operation in the details which in some degree came under my supervision, believe me "Very sincerely yours,

GOOD BUYING OF C. AND O.

Gould Properties Were Also Generally Well Taken.

GENERAL MARKET REPORTS

Special Dispatch to The Evening Star.

NEW YORK, March 7.- The opening of today's stock market reflected a disposition on the part of certain large operators to lighten accounts. The pressure of long stock forced some sudden recessions, especially in Amaigamated Copper and Burlington. The fact that a prominent bank, supposed to represent a few of the larger interests, had called loans yesterday and the steady rates for call money today made the street hesitate, and, instead of adding to present holdings, the lines of long stock were curtailed.

The stocks which were recently most active gave way to the selling, but were well taken at the lower prices. Union Pacific, Atchison and Erie receded under the pressure, and pool support was not aggressive.

Chesapeake and Ohio was taken in round amounts during the morning, in spite of the easier tone reflected elsewhere, and gained 2 per cent. The demand was based upon the excellent statement of earnings, and the hope that they will lead to increased dividends. St. Paul was advanced about 2 per cent upon its dividend prospects, and little was heard of the postponed deal in these shares.

Southwestern roads were firm in tone and attention was again directed to the Gould properties by reason of their steadiness in a duil market. It was something of a co-incidence that both Manhattan and Westincidence that both Manhattan and Western Union, Gould properties of a slightly
different character, should have developed
superior strength after the first hour. Pool
buying is credited with advancing these
shares and a considerable following has
been created by reason of the responsive
condition of both properties.

The covering of a considerable short interest in Tennessee Coal and Iron forced
the price up sharply, and led to a temporary revival in the properties which are
not included in the new corporation. With
the usual disregard for consistency, the
street argued that the independent companies would be greatly benefited by the giant

nies would be greatly benefited by the giant concern. Only a few days ago the argument was exactly opposite, and the shares were then as weak as they were strong to-The former view is likely to prove to be

the former view is likely to prove to be the more correct, temporarily at least. Today's high prices falled to hold under the pressure of the new selling which they inspired. The stocks which are included in the new company were strong but inactive. In Federal Steel and a few of the lower-priced common shares there is a steedy by priced common shares there is a steady absorption going on which argues well for the future of the new securities. Sugar and To bacco were irregular and two factions seemed to be contending for market supremacy The Gas stocks were strong at new high prices and something very gratifying to shareholders is said to be pending in them, especially in the consolidated company. The demand for the high grade, inactive investment shares was good and there was a good inquiry for bonds, except governments, which were a shade easier. The market as a whole was a triffe heavy late in the day and mixed in character.

trading market would seem to have been established instead of a sustained movement in either direction. Rallies and declines will succeed each other and new risks will not be undertaken for a long pull. In special instances there may be developments which will warrant substantial swings, but the general market is likely to follow only a part of the way.
